About Excelsior

Who are we

Is acquiring a new skill sufficient? Is it possible to start a new career in a different field? Will employers hire you once you complete a certification course?

Excelsior was founded in 2017 by three co-founders from IIT Kharagpur and IIT Delhi, who saw a need in the field of skill acquisition and decided to fill it. Excelsior is more than simply an Ed-tech platform; it's a one-stop solution for career guidance, learning, and placement to help students reach their goals. To develop high-quality online learning experiences that enhance learner success, we use the newest technology, best teaching techniques, and collaborations with exceptional industry leaders. We're the industry's premier source of software-technology training, with live lectures given by industry leaders and subject matter experts. Our intensive programs combine a modern curriculum with hands-on experience using cutting-edge technology.

Our Mission

Excelsior aspires to fulfill its purpose of re-inventing the student learning experience by elevating mentoring, learning, and placement to new heights. We want to transform how students and working professionals think about their future.

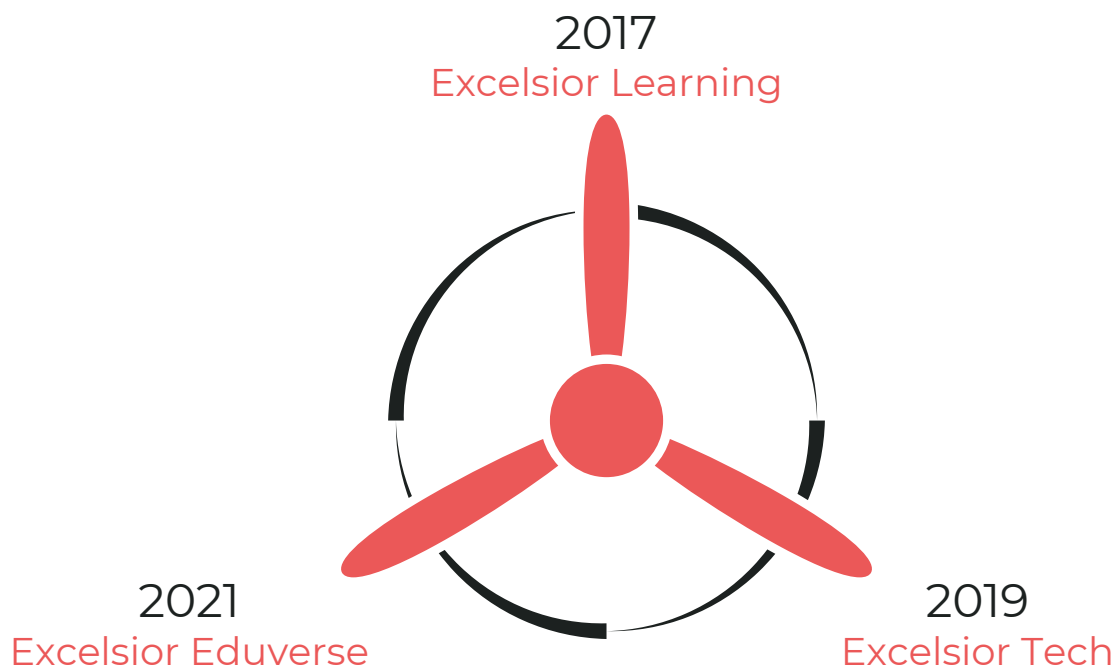

Our Vision

We have the problem of rising tuition and diminishing returns for students who are placed in the wrong classes or receive weak guidance. Excelsior seek to solve this problem by offering a dynamic learning experience that guides students through the most efficient paths for knowledge acquisition and development of skills and passions to achieve long term success.

About Excelsior

Our Journey

2017

To provide best upskilling education to the students, Excelsior Learning was started in 2017.

2019

The “best talent” at our disposal, Excelsior Expanded to IT Product has solved a major problem in the industry: data security.

2021

Excelsior proudly announces the launch of Edu-verse, where guidance, learning and placement services are all under one roof.

Excelsior Report Card

Figures of Progress

6600+

Join over **6,600** students, who have drastically changed their lives by taking the Excelsior Online course.

53%

Excelsior Data Science students get a **massive 53%** hike in their salary package.

97%

97% of our students find a job within **3 months** of graduating.

Excelsior Report Card

Figures of Progress

10.7 LPA

Average salary of freshers increased from **10.1 LPA** to **10.7 LPA** in last batch.

76.8 LPA

Highest Placement after Excelsior's Data Science course was **76.8 LPA** in one of FAANG companies.

160+

There is a nearly **12X** increase in hiring partners since 2017. Now there are more than **160** companies and startups which have endorsed Excelsior's online courses.

Learning Process

4E(s) of Success

1

EXPLORE

Choosing the right path is half the battle won.
Seek guidance from a data scientist mentor and a career counselor to help you find the right path.

2

ENROL

Enroll now in the best online data science course to begin your journey into a successful career, as companies today are demanding employees who have a solid knowledge of data science.

3

ENHANCE

Learning advanced skills can make you 1000x more valuable and a more competitive candidate for more opportunities. Learn from scratch in 1 to 1 mentor sessions and practice live projects and enhance your profile and knowledge.

4

EXCEL

Now, it's time to stand out in front of the best companies across different domains! Get placed in your dream job by learning how to perform great in interviews.

Why Excelsior

Formula for Success

Join the Excelsior's Data Science community and get access to a comprehensive library of Data Science courses covering in-demand skills like Machine Learning, AI, Business Analysis and more. Practice real-world learning with our Mentorship Program that provide you a real world scenario projects. Get lifetime access to structured courses, industry-relevant labs, live projects, 24/7 support and more—all designed to help you master the perfect combination of business knowledge, technical skills and soft skills needed for your targeted job role! The Data Science Community is growing by 30% each year. Join now!

EXCELSIOR EDGE	DETAILS	OUTCOME
Small Batches	A maximum of 12 students in a batch	<ul style="list-style-type: none">• Personalized attention from mentors• More comprehensive learning experience
Dedicated RM	A dedicated and expert team of counsellors for guidance	<ul style="list-style-type: none">• No wait for your questions to be answered or your concerns addressed• 24X7 Support
Learning Analytics	Stay on track with a course, degree and career advisor	<ul style="list-style-type: none">• Regular Progress Report to guide you properly in your learning journey• Assignment Scores & stats to know your progress
Q&A Forum (Data Science Community)	Engage with other learners and professional Data Scientists	<ul style="list-style-type: none">• Real-time Industry updates• Support and guidance for doubts and projects
Unlimited Live Projects	Get real-life data science experience	<ul style="list-style-type: none">• Master real-world skills to build Machine-Learning models• Highlight your CV

Why Excelsior

Career Support

Profile Building

Excelsior's industry experts are the ultimate resource for anyone looking to build their profile

- Resume Building
- LinkedIn Profile Building
- Github Building

Expert Sessions

Excelsior offer expert advice on softskills and HR topics

- Counselling Sessions with Real Data Science experts
- Prepare for HR Interviews
- Learn Interviewers Psychology
- Develop Soft-Skills

Mock Interviews

Get an upper hand in a data science job interview? Prepare for high pressure interview scenarios.

- Live Interview Simulations
- Expert Feedbacks
- Prepare for real high pressure scenarios

Your Guides

Mentors

So, here is the question. If there was a person who worked with Microsoft, Facebook, Amazon, Uber and Yahoo just to name a few and then he started working in Fampay as an Engineering Manager. What kind of guidance would you expect from such a person? Would you be interested in asking him how to crack the interviews for these companies? Would this be an opportunity that would be difficult to miss on?? We believe it is definitely worth your effort. If you are someone aspiring to work in any of the large tech companies, or aspire to work in the startup world, his guidance would be invaluable.

Shobhit Gupta

Engineering Manager at FAMPAY
Ex-Microsoft, Ex- Amazon,
Ex-Facebook, Ex-Uber
Ex-Goldman Sachs, Ex-Yahoo

In a world where its hard to hold on to a job due to high pressure and fast pace. Rohini has been excelling at one of the biggest companies of the world - CISCO for over 10 years. Rohini Jain is a technology enthusiast, an experienced Software Architect, she has a wealth of experience to share with the students Rohini leads a team of software developers and software test engineers who are responsible for implementing automation solutions to make the process of testing software more efficient. She can guide you through every step of your journey and help you land your dream job as well as excel in it.

Student Review

What our Students say

T Pavan Kumar

(Data Scientist-IBM)

My experience with the course and support team has been very positive. The Excelsior team is friendly and always available to answer questions, and they provide a good mix of reading material and videos. It's a challenging course with a steep learning curve, but it's also very rewarding. I would recommend the Excelsior to anyone who is willing to learn with hands on experience.

Nishant Singh

(Data Scientist- RBS)

Excelsior is a very good institute to learn Business Intelligence & Analytics because they have a very good team of faculties who are experts in their field. They really helped me a lot when I was stuck and guided me towards the right direction. I recommend Excelsior to anyone who wants to learn Business Intelligence or Analytics.

Harshita Rampal

(Data Scientist-Mondelez International)

I was a fresher in Analytics industry, and I wanted to start my career in Data Science. I needed guidance from an expert for this. Excelsior's Team is very supportive and helped me a lot to get started with in this field. They provided me with in-depth curriculum and detailed teaching which helped me in achieving my goals in the right direction.

Student Review

What our Students say

Neelam Singhal

(Data Scientist - Goldman Sachs)

I highly recommend Excelsior Data Science Courses. The best part is that they have a placement team that will help you get a job after the course which absolutely rocks! I loved their 1-on-1 classes where I learnt from someone who has been in the field for quite a while!

Suresh Goel

(Data Scientist-Amazon)

I took Excelsior's course to learn how to do Data Science from a theoretical perspective, and I was not disappointed. The course is accessible to a wide range of students, and the materials are top notch. The professor is a real Data Scientist who knows his stuff and explains it well. The assignments are varied and thought provoking. The placement process was excellent and very transparent.

Deepak Kumar

(Data Scientist-Reliance Jio)

Excelsior has a well-designed course that is broken down into easily manageable sections. The Excelsior team is responsive to questions and requests, and they do an excellent job of keeping the community engaged. I'd recommend this course to anyone who wants to learn how to use Data in a practical way but doesn't have time for a degree program.

Student Review

What our Students say

Suresh Gupta

(Associate Data Scientist- Oracle)

I've always been interested in Learning Data Science, but never had the time to study for it. When I found out about Excelsior and their online, accelerated course, I was instantly intrigued. The course is well organized with a good mix of Live Classes, reading material and videos. It also provides a great way to learn through hands on experiences while working on real world projects and learning what we have to use.

Shashank Sinha

(Data Scientist- Paytm)

I have been to many well-known Data Science / Machine Learning courses in Bangalore. But I could not find the right course which could help me to land my first job in this field. Then, I found Excelsior. Excelsior's mentor Mr. Sandeep was so helpful and so knowledgeable in this field that he could guide me throughout the course and they helped me to get placed in a Top MNC through their extensive placement program.

Nishant Gupta

(Data Scientist-HDFC)

Excelsior is the best Data Science institute in Bangalore. They offer a wide range of courses to learn Data Science. Moreover, they have one of the best placement program which helps the students to get placed in top companies. Big thanks to Mr. Ekansh and the entire Excelsior team for helping me to get my dream job in Data Science field.

Student Review

What our Students say

Vikram Rajput

(Data Scientist-Axis)

I was initially skeptical about taking an online course, but once I began to take the classes, I found the study material to be top notch and the individual attention I received from the instructors to be invaluable in helping me understand difficult concepts. I have a good understanding of Python and Data Science now. Overall I really liked the class and feel like I learned a lot.

Rahul Goswami

(Marketing Analyst-Chegg)

Being from Civil Engineering Background, I was afraid of coding. . I've been really anxious about learning Data Science, Excelsior has given me that confidence. Support is excellent and very empathetic. I was able to easily follow my passion for numbers in the Marketing Analytics course.

Hemanth Reddy

(Data Scientist-Airtel)

I have recently completed this course and it was the best decision I have made in my life. The course is well designed with details, examples, exercises, lectures and assignments. The mentors are really helpful, and they helped me to clear all my doubts regarding the program. They always replied to my emails on time, and I also got a job through Brilliant Data Science.
